A-level: Mathematics A*, Further Mathematics A, Computer Science A, Economics A

FSMQ Additional Mathematics: A

GCSE: Grade 9 in Computer Science and Mathematics. Grade 8 in Physics, Chemistry, Biology, English Language, English Literature and Religious Studies. Grade 7 in History and Geography.

EXPERIENCE

Private Tutor, self-employed

Sep 2024 to present

Borehamwood, Elstree and north London, in person and online

- Teaches Mathematics, Computer Science and Python to students aged 4 to 16, adapting delivery to each student rather than working from a fixed scheme.
- Built the entire client base through referral and word of mouth, with no paid advertising. Longest client relationship runs to over 17 months of continuous weekly sessions.
- Runs the business end to end: pricing, scheduling, invoicing, parent communication and session records, using a custom relational database system built in Notion.

Software Development Intern, Credit Data Research

Jul 2025

- Audited the company's corporate web platform and reported findings to the team.
- Delivered recommendations on web architecture and user experience, working in an open banking and credit data environment.

PROJECTS

- **Weather application, 2025 to 2026.** Full stack A-level Computer Science coursework project built independently. JavaScript front end with HTML and CSS, consuming live forecast data from the OpenWeather API, backed by a SQL database. Taken from requirements analysis through design and implementation to testing and a written technical report.
- **sammygarcia.co.uk.** Personal site, hand written in HTML and CSS with no framework or site builder.

LEADERSHIP AND VOLUNTEERING

- **School Chess Team Captain, 2024 to present.** Leads the school team at inter-school tournaments.
- **Start Up leadership course, 2024.** Led a cross functional team developing a product concept to counter digital misinformation, applying lean startup and user centred design methods.
- **Save a Child's Heart, Jul 2024.** Spent time with children recovering from heart surgery, supporting them through their hospital stay.
- **Community projects, Jul 2023 and Aug 2025.** Built outdoor furniture for underserved communities and packed nutritional supplies for distribution. Assembled welcome packs for incoming NHS workers with Communities 1st.

SKILLS AND INTERESTS

Technical Python (confident), JavaScript, SQL, HTML, CSS. Database design, algorithm design, Notion database build.

Other Public speaking and debate training (four week programme, Nov 2024). Distance running. Chess to ECF rated standard. Reading, chiefly Stephen King and science fiction.
